Our Goal...

The Difference GEE Preparatory Can Make

Our goal is to remove barriers to academic achievement and see each student graduate from high school. We work to help students realize a brighter future through initiatives such as after school support, summer school, dual-enrollment, non-traditional education, and real world experience.

High expectations: We have high hopes for every student and provide the infrastructure to support them.

Center based highly qualified, certified, full-time, teaching staff: We establish learning centers in communities where our students live. Caring and professional educators are at each center and ready to help students when they need it.

Planned graduation program: Each student chooses a class schedule that meets his or her education and personal needs. For example; many choose the to take one class at a time so they can focus on one class, complete it, build success, and then move forward to their other planned program classes. A large number of our students have demands on their time outside of school such as jobs and children so this method often fits into their lives better. It is the same amount of classes a year as other schedules- just divided up differently.

The tools they deserve: We offer quality laptops and wireless internet devices because our kids need to know we value them and are willing to invest into their educations, lives, and futures.

Internship opportunities: We collaborate with local businesses to help students learn the world of work and the “soft skills” needed to succeed.

Certified and Experienced

Our experienced, professional, and extremely caring staff have the knowledge and proven philosophies to help you achieve your goals!

Our Model

Provide high quality, effective education for students who dropped out and students don't fit into traditional high school structure process.

Flexible Schedule

Learn at your own pace! Our hybrid model allows you to learn at the comfort of your own home or at first-class local learning center!

How we can help:

It happens. Sometimes life just gets in the way and you can't do the things you know you should do to help yourself attain a better life. If this happened to you, we understand. We care, and we're here to help. We offer access to FREE services designed to help get you back on the path to success. Free laptop, free internet, free one-on-one tutoring, flexible scheduling, highly qualified, caring teachers, and first-class facilities that students can visit as often as needed. GEE Preparatory students graduate not only with the diploma they need but also with a work history, references, and often, a job.

Our Staff:

The staff members at GEE Preparatory are carefully selected – ensuring all teachers and case managers have the mindset of a counselor and a heart for helping our youth. We provide two-way communication including home visits, if necessary, to ensure students are motivated to succeed. An average of just 10 students in a center at any given time means students can spend as much time as needed with a teacher. When students visit a learning center, they walk into an environment where building relationships and providing support is just as important as learning.

Schedule your consultation session and tour our Learning Center!
